# FIELD MAINTENANCE

EIA has earned a reputation for quality workmanship and reliability as a heavy industry maintenance provider delivering 24/7 breakdown and shutdown support to clients across Australia.

We have several site compliant service vehicles available for immediate deployment to your site, fully equipped to assist with the maintenance and repairs of fixed and mobile plant. All EIA maintenance staff are highly trained, experienced personnel who have shaped their backgrounds working on a large variety of plant and equipment. EIA ensures through selective recruitment and comprehensive training, that all our personnel completing your maintenance hold a skill set tailored to your demands.

So whether it is a single person or a small team you require, EIA can provide you with the quality solutions for your breakdown, planned maintenance or temporary labour requirements. Call us today to discuss your needs.

---
